**NOTICE OF PROPOSED RULE MAKING****Adopted: April 14, 2004****Released: April 19, 2004**

By the Chief, Audio Division:

**Comment Date: June 10, 2004**

**Reply Comment Date: June 25, 2004**

1. The Audio Division has before it a multiple docket *Notice of Proposed Rule Making* setting forth twelve Petitions for Rule Making to amend the FM Table of Allotments, Section 73.202(b) of the rules, to reserve certain vacant FM allotments for noncommercial educational ("NCE") use.

2. In the *Reexamination of the Comparative Standards for Noncommercial Educational Applicants ("NCE Report and Order")*, the Commission established revised criteria by which a rulemaking proponent may reserve an FM allotment for NCE use.<sup>1</sup> Under the expanded criteria, a proponent must demonstrate that it is technically precluded from using a reserved channel (Channels 200 through 220) and the proposal would provide a first and/or second NCE radio service to at least 10 percent of the population within the 1 mV/m contour of the proposed station. Originally, the Commission limited this expanded reservation criteria to future allotment proceedings. Thereafter, the Commission extended the expanded criteria to existing vacant FM allotments for which a Notice of Proposed Rule Making had been released prior to August 7, 2000, the effective date of the *NCE Report and Order*.<sup>2</sup>

3. In a Public Notice released September 30, 2003, we invited petitions for rule making to reserve vacant FM allotments for NCE use pursuant to the *NCE Second Report and Order*.<sup>3</sup> In response to the Public Notice, we received 129 petitions for the reservation of 91 allotments. We believe that the public interest would be served by proposing the reservation of the above-captioned allotments for NCE use. Based upon our preliminary study, each petitioner has expressed an interest in applying for an FM allotment reserved for NCE use, is eligible to do so, and has demonstrated compliance with the expanded criteria set forth in the *NCE Report and Order*. We are combining the separate NCE reservation proposals into a single *Notice of Proposed Rule Making*. Each proposal has its own docket and rulemaking number, and the Commission's Reference Center will maintain a file for each docket. This procedure will conserve Commission resources and expedite the processing of the FM allotment reservation petitions by avoiding duplicative actions.<sup>4</sup> We will not entertain counterproposals or any proposal to modify the underlying allotment other than reserving the allotment for NCE use. Instead, a party may file rebuttal comments identifying a site at which a reserved channel could be assigned with facilities fully equivalent to the proposed reserved allotment. Such an alternate reserved channel proposal also must satisfy the first and/or second NCE radio service criterion. In addition, a party may file comments demonstrating that the reservation proposal would not, in fact, provide a first and/or second NCE radio service to ten percent of the population within the 1 mV/m contour of the proposed station.

<sup>1</sup> 15 FCC Rcd 7386 (2000). Previously, the Commission would only reserve a channel in the nonreserved FM band (Channels 221 through 300) if the petitioner demonstrated that no reserved channel could be used without causing prohibited interference to a Channel 6 TV station or a foreign broadcast station.

<sup>2</sup> *Reexamination of the Comparative Standards for Noncommercial Educational Applicants ("NCE Second Report and Order")*, 18 FCC Rcd 6691 (2003).

<sup>3</sup> *Media Bureau Opens Window to Permit Noncommercial Educational Reservation Showings for Certain Vacant FM Allotments*, 18 FCC Rcd 19600 (MB 2003).

<sup>4</sup> The staff will release additional multiple docket notices of rulemakings during the next several weeks.
